Profile

I am a full-stack developer with hands-on experience in Laravel, React.js, and React Native. I have successfully built projects like the Gizebet Project Management System and Gebeta app, gaining strong skills in delivering scalable and efficient software solutions. My experience at Qelem Meda Technologies has sharpened my ability to collaborate effectively within teams and drive innovative development outcomes.

Education

Software Engineering, *Wollo University*   present
Developed a strong foundation in software engineering principles, specializing in   Kombolcha, Ethiopia
full-stack web development, data structures, algorithms, and mobile application
development. Gained practical experience through hands-on projects, internships,
and collaborative work in areas.

Professional Experience

Full Stack Developer, *Qelem Meda Technologies* ⬏   07/2024 – 10/2024
As a Full Stack Developer intern at Qelem Meda Technologies, I contributed to   Addis Ababa, Ethiopia
building the Gizebet Project Management System using Laravel, React.js, and
Inertia.js. I developed core features like task management and user roles, improving
project efficiency and reducing load times by 20%. Through this role, I gained
valuable experience in agile development, code optimization, and team
collaboration.

Skills

JavaScript, PHP, SQL, HTML, CSS — Proficient

React Native, Node.js, Express.js — Competent

Git, GitHub, Agile (Scrum) — Proficient

Laravel, React.js, Inertia.js, Tailwind CSS — Proficient

MySQL, SQLite, Beekeeper Studio, XAMPP, Linux — Proficient

Problem-solving, teamwork, communication, adaptability — Expert

Projects

Audiophile E-commerse Website, *E-commerce for Site for Music Lovers :)* ⬏   10/2023 – 01/2024
Audiophile is an online platform for purchasing high-quality audio products. Built
with modern web technologies, the site offers a seamless shopping experience,
including product browsing, filtering, and secure checkout. With a responsive
design and intuitive user interface, Audiophile ensures customers can easily explore
and purchase premium audio equipment across devices.

Gizebet Project Management Platform, *Project Management Platform* ⧉   07/2024 – present
Gizebet is a dynamic project management system designed to streamline task tracking, team collaboration, and project organization. Built using Laravel, React.js, and Inertia.js, it offers flexible features like user role management (Owner, Admin, Member), task hierarchies, and customizable attributes for diverse project needs. Gizebet enables efficient management of complex workflows by supporting task nesting (subtasks and sub-subtasks), ensuring seamless project execution from start to finish

Portifolio Website ⧉   03/2024 – 04/2024
My portfolio showcases my skills, projects, and professional journey as a developer. Designed to reflect my expertise in full-stack development, the site highlights key projects such as Gizebet and Audiophile, with detailed descriptions and visual demos. With a clean, user-friendly layout, the portfolio offers visitors insight into my technical abilities, approach to problem-solving, and commitment to building innovative, impactful solutions.

Techino Club Website ⧉
The Techino Club website is designed to facilitate easy enrollment for students interested in joining our tech-focused community. Built with user-friendly forms and interactive validation, the page streamlines the registration process, ensuring a smooth experience for new members. Through this project, I focused on creating an intuitive and accessible interface to support students in connecting with the club and accessing resources and informing the students about the club

Quiz App, *Roha Quizs* ⧉
This interactive quiz app was built to strengthen my frontend development skills, focusing on responsive design and dynamic user interfaces. It allows users to test their knowledge on various topics through multiple-choice questions and provides real-time feedback, scores, and progress tracking. The project helped enhance my proficiency in JavaScript, HTML, and CSS, combined with react and refined my skills in creating engaging, user-friendly interfaces.

Certificates

- Javascript And ReactJS
  training Bootcamp certificate
  ⧉

Interests

- I'm interested in Chess :) ⧉
